Dear Mr. Harris:

Re: Sampling Inspection  
October 13, 1975

Please find enclosed copies of the laboratory results of the samples taken of the plant's effluent on October 13, 1975.

The results show that the discharges contain significant amounts of heavy metals and nitrogen; therefore, you are officially requested to appear in our offices on November 17, 1975, at 2:00 p.m. to discuss this matter. Should you have a previous conflict, please contact me.

Your cooperation during our last two visits is greatly appreciated. Hopefully we can work out this situation in a reasonable timely fashion.

If you have any questions concerning this matter, please advise.

Sincerely yours,

Harry F. Garretson, III
